

Tolulope Gbenga

Software Engineer — Android & Blockchain

Yaba, Lagos, Nigeria · tolulopeoluwagbemiga06@gmail.com · [linkedin.com/in/gbenga-tolulope](https://www.linkedin.com/in/gbenga-tolulope) · github.com/toluwagbemiga

SUMMARY

Android Software Engineer at ALAT (Wema Bank's digital banking app, 2M+ users) with 2+ years shipping production Kotlin and Jetpack Compose features within a 200+ engineer organization. Built the Wema Agent app end-to-end from scaffolding through pilot, and contributed to migrating ALAT's core app from XML Views to Compose. Parallel background in full-stack web (Laravel, Next.js) and Solidity smart contract development and security auditing.

SKILLS

Languages: Kotlin, Solidity, PHP, Python, JavaScript, TypeScript, Go, Dart, SQL, HTML, CSS

Web & Backend: Next.js, Laravel, FastAPI, NestJS, Django REST Framework, Node.js, RESTful APIs, gRPC, GraphQL, Microservices, FilamentPHP

AI & ML: LLM app development (Qwen, Claude), model routing/cost optimisation, RAG, fraud detection modelling, scikit-learn, Random Forest, LoRA fine-tuning (learning)

Frontend: React, Next.js, Vue.js, TypeScript, Tailwind CSS, Streamlit

WordPress: WordPress, Elementor Pro, Astra, custom plugins & themes

Mobile: Android, Jetpack Compose, KMP, Coroutines, Hilt, Flutter, Room, Retrofit, Clean Architecture / MVVM

Blockchain & Web3: Smart Contract Development & Auditing (Solidity, Mythril), DApp Integration, Bug Bounty Hunting

Databases: PostgreSQL, MySQL, SQLite, MongoDB, Redis, Room

DevOps & Tools: Git/GitHub, Docker, Kubernetes, Claude Code CLI

Other: Microsoft Office Suite, Google Workspace

EXPERIENCE

Relationship Manager

Nov 2024 – Jul 2025

First Bank Nigeria

- Collaborated with the Team Lead to ensure seamless sales and relationship management operations, increasing client satisfaction and loyalty among affluent customers.
- Analyzed client feedback and sales metrics to support strategic decisions that enhance sales effectiveness and engagement.

Software Engineer (Android & Blockchain)

Nov 2024 – Present

ALAT (Nigerian Financial Institution) — Hybrid

- Built the Wema Agent mobile app end-to-end — scaffolding through pilot — using Kotlin, Jetpack Compose and Hilt, within a 200+ engineer organization.
- Shipped the authentication feature for ALAT's core banking app, used by over 2 million users.
- Contributed to migrating ALAT's legacy 1.0 codebase from XML/View-based UI to Kotlin and Jetpack Compose.
- Accelerated delivery by embedding AI-assisted tools, including Claude Code CLI, into daily workflows.
- Designed and integrated RESTful and gRPC APIs between mobile clients and backend microservices.

Founder & Lead Developer

2021 – Present

Artix Solutions (registered web development agency) — Lagos, Nigeria

- Founded and run a registered web development agency: client acquisition, scoping, delivery and support.
- Delivered WordPress sites for clients including Fort Kovant Legal Practitioners, TheAcemanplus Ventures and the Olusegun Fadare Foundation.
- Built custom client platforms in Laravel, including immigration case-management systems with client portals and role-based admin panels.

Software Engineer

Jan 2024 – Nov 2024

Givitec Software Company

- Engineered full-stack web solutions using Laravel, Next.js and modern JavaScript for client platforms.
- Conducted smart contract security audits using Mythril for enterprise clients (findings confidential under NDA).
- Developed a secure lawyer directory platform for Edo State with RBAC and advanced search, driving a 25% increase in user engagement.
- Launched several websites including smemediagr.com, onegheselefoundation.com, nbaedostate.com and spartapp.ng.

Lead Full-Stack Developer

Jan 2023 – Jan 2024

Songuyo Shopping

- Directed full lifecycle development of a high-volume e-commerce platform.
- Architected a scalable Laravel backend, optimizing queries and resources to process up to 300,000 daily requests.

IT Intern

Mar 2021 – Aug 2021

Federal University of Technology, Akure — Digital Research and Resource Sharing Center

- Administered mission-critical software and database systems supporting over 2,000 students with zero downtime during exams.
- Optimized network infrastructure and hardware across a 400-node computer network.

Full Stack Developer (Freelance)

2021

Shuraka Investment

- Built a short-term real-estate investment platform (HTML, CSS, JavaScript, PHP); since discontinued.

Full Stack Developer (Freelance)

2020

FundtheWxlvcs

- Built a crowdfunding platform for EC77 Clothing (HTML, CSS, JavaScript, PHP); no longer operational.

SELECTED PROJECTS

Digital Twin (Qwen Hackathon) — Permission-aware memory agent with cost-optimised model routing; classifier hit 10/10 on a fixed test set at 80% the cost of always using the top-tier model. github.com/toluwagbemiga/digital-twin

Bivio — POS-integrated financial management app for micro-lenders: Django REST Framework, Flutter, FastAPI + scikit-learn categorisation. github.com/toluwagbemiga/bivio

AfriPay — Android banking app: Jetpack Compose, Clean Architecture/MVVM, Hilt, Room, offline-first. github.com/toluwagbemiga/AfriPay

Kiroween — Microservices SaaS starter: Go + gRPC services, Next.js 14 + TypeScript frontend, WCAG 2.1 AA. github.com/toluwagbemiga/kiroween

PayCircle — On-chain split payments: Solidity contract on Ethereum Sepolia, Next.js frontend. github.com/toluwagbemiga/paycircle

Songuyo E-commerce Platform — High-volume Laravel platform processing 300,000 requests daily. songuyo.com

Edo State Lawyer Directory — Secure directory with RBAC; 25% increase in user engagement. nbaedostate.com

CERTIFICATIONS

- **Scheduled:** Kubernetes and Cloud Native Associate (KCNA) — CNCF, exam Sep 2026
- Introduction to Linux (LF101/LFS101) — The Linux Foundation, Aug 2026
- Introduction to Kubernetes (LF158/LFS158) — The Linux Foundation, Aug 2026
- Kubernetes and Cloud Native Essentials (LF250/LFS250) — The Linux Foundation, Aug 2026
- Introduction to Cybersecurity — Cisco Networking Academy, Jan 2025
- Network Technician Career Path — Cisco Networking Academy, Jan 2025
- Full-Stack Web Development Bootcamp — Udemy, 2024

EDUCATION

- **B.Sc. Computer Science** — Adekunle Ajasin University

ACHIEVEMENTS

- Completed NYSC service year, Jan–Nov 2024, as a software engineer at Givitec Software Company.
